

2.4.2022 Email to grower/processors who affirmed not using additives in vaporized products

Hello,

The Department conducted a statewide review of all vaporization products containing added ingredients and has determined that certain vaporization products containing added ingredients, such as externally sourced flavorings or terpenes, have not been approved for inhalation by the United States Food and Drug Administration. 35 P.S. § 10231.702(a)(5), 28 Pa. Code § 1151.27(f). Thank you for your timely response to the Department's request for information and your prior affirmation that you do not use additives in your vaporized products.

The affected grower/processors have just been notified that these products meet the conditions for recall under 28 Pa. Code § 1151.42(c)(1); accordingly, mandatory recall procedures must be implemented. 28 Pa. Code § 1151.42(c). The affected grower/processors have also been directed they are no longer permitted to produce these products. The list of affected products is posted on our website at www.medicalmarijuana.pa.gov.

Thank you for your commitment to keeping patients safe.

Sunny
